6. Accidental Release Measures:

Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment. Isolate hazard area. Keep unprotected personnel from entering. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect material in an appropriate container. Liquids may be absorbed with an inert material (e.g. vermiculite, dry sand, earth), and place in a chemical waster container. Do not use combustible materials such as saw dust. Do not flush to sewer! If a leak or spill has not ignited, use water spray to disperse any vapors, to protect personnel attempting to stop leak and to flush spills away from exposures.

7. Handling and Storage:

Keep in a tightly closed original container, stored in a cool, dry, ventilated area. Protect against physical damage. Isolate from incompatible substances. Product may be slippery if spilled. Containers of this material may be hazardous when empty since they retain product residues (dust, solids, liquids). Observe all warnings and precautions listed for the product.

8. Exposure Controls/Personal Protection:

VENTILATION SYSTEM: A system of local and/or general exhaust is recommended to keep employee exposures low when product is misted, vaporized or aerosoled.

PERSONAL RESPIRATORS: For conditions of use where exposure to dust or mist is apparent and engineering controls are not feasible, a respirator may be worn.

SKIN PROTECTION: Wear protective gloves and clean body-covering clothing.

EYE PROTECTION: Safety glasses. Maintain eye wash fountain and quick-drench facilities in work area.

9. Physical and Chemical Properties:

Appearance: Green clear liquid.

Odor: Pleasantly perfumed.

Solubility in Water: Completely soluble in water.

Specific Gravity: 1.01

pH: 11 - 12 (Conc)

Volatile (% V.O.C. by volume): 0.00

Melting Point: Not Known

Vapor Density (Air=1): Not Known

Vapor Pressure (mm Hg): Not Known

Evaporation Rate (BuAc=1): As water.

10. Stability and Reactivity:

STABILITY: Stable under ordinary conditions of use and storage.

HAZARDOUS DECOMPOSITION PRODUCTS: Not known.

HAZARDOUS POLYMERIZATION: Will not occur.

INCOMPATIBILITIES: Avoid mixing with other chemicals unless reactivity is known.

CONDITIONS TO AVOID: No information found.

11. Toxicological Information:

No toxicological information is known for this product

12. Ecological Information:

Environmental Fate: Not established

Environmental Toxicity: Not available

13. Disposal Considerations:

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste facility. Large amounts should be given to a licensed disposal agency. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local regulations.

14. Transport Information:

D. O. T. Classification (Domestic, Land):
Class 55, Cleaning Compound, Non Hazardous

15. Regulatory Information:

Not Known

16. Other Information:

DISCLAIMER:

See the product label for use directions.

The information of this Material Safety Data Sheet reflects the latest information and data that we have on hazards, properties and handling of this product under the recommended conditions of use. Any use of this product or method of application which is not described on the Label or in the Product Data Sheet is the responsibility of the user.

This Material Safety Data Sheet was prepared to comply with the OSHA Hazard Communications Regulation and Massachusetts Right to Know Law.
