Directions:

1. On the first working day of January, any perc purchases from the previous year should be logged into the corresponding month's row along the left side and repeat until you hit the solid black line.
2. Every first day of the month for the current year, place the previous months perc purchases into the corresponding months row along the left side STARTING at the right of the black line and repeat until the end.
3. On the first working day of each month compute the 12 MONTH ROLLING TOTAL by adding the columns above the corresponding month at the bottom.

IMPORTANT!! At no time do you want to go over 140 gals
